

Table Of Considerations

Work Packages	Locomotion	Visual	Hearing	Mobility, Reaching, Stretching and Dexterity Impairments	Cognitive Impairments
Walking - Horizontal Alignments	<ul style="list-style-type: none"> Clear paths & flush surfaces Continuous routes Parking enforcement Widths of footways Ramps / lifts alongside steps Segregation of modes 	<ul style="list-style-type: none"> Avoid large expanses of empty space Clear paths & flush surfaces Continuous routes Parking enforcement Widths of paths Warnings / alternatives for steps Add handrails to steps / ramps Segregation of modes Use contrasting coloured surfaces Provide visual signals on both sides of signalised pedestrian crossings 			<ul style="list-style-type: none"> Use contrasting coloured surfaces in designs / schemes Lighting considerations Provide visual signals on both sides of signalised pedestrian crossings Simple pictorial signing Segregation of modes
Walking - Vertical Alignments		<ul style="list-style-type: none"> Heights & overhangs Continuous routes Segregation of modes Use contrasting coloured surfaces Lighting considerations Parking 		<ul style="list-style-type: none"> Kerb / step heights Drop kerbs Clear paths & flush surfaces Heights of push buttons Handrails Ramps / lifts alongside steps Add handrails to steps / ramps Seating provision with back and arm rests Gradients 	<ul style="list-style-type: none"> Count-down displays at crossings Easily visible signage Use contrasting coloured surfaces in designs / schemes Lighting considerations
Cycling - Horizontal Alignments	<ul style="list-style-type: none"> Kerb heights Drop kerbs Continuous routes Width of cycleway facilities / turning space Segregation of modes 	<ul style="list-style-type: none"> Contrasting Surfaces Segregation of modes 	<ul style="list-style-type: none"> Segregation of modes 		<ul style="list-style-type: none"> Kerb heights Drop kerbs Continuous routes Width of facility - manoeuvring of adaptive cycles Segregation of modes
Cycling - Vertical Alignments	<ul style="list-style-type: none"> Visibility for adaptive cycles Ramps / lifts alongside steps Signage heights 	<ul style="list-style-type: none"> Contrasting surfaces 	<ul style="list-style-type: none"> Signage maintenance 		<ul style="list-style-type: none"> Visibility for adaptive cycles Ramps / lifts alongside steps Heights of warning signs
Public Transport - At Boarding/ Alighting Areas	<ul style="list-style-type: none"> Bus boarders Widths of bus stops & shelters to accommodate wheelchairs 				
Public Transport - On Board					
Car - At Start/End of Car Trip					
Non-Mode Specific	<ul style="list-style-type: none"> Provide ramps & lifts User call buttons People detectors Clear, concise travel information 	<ul style="list-style-type: none"> Audio information points Audio alerts at crossings Braille not advised Clear, concise travel information 	<ul style="list-style-type: none"> Security of open spaces Visual countdown displays at traffic lights / crossings Self service ticket machines Text display information points Clear, concise travel information 	<ul style="list-style-type: none"> Crossing times Count down crossings Signal phases Font size & typeface Text / pictorial simple signing Facilities signed Lighting & coloured surfaces Security of open spaces 	<ul style="list-style-type: none"> Audio information points Visual alerts People detectors on crossings Technical aids to remember routes Clear, concise travel information
